

Project -AI BASED LIGE ASSISTANCE CHATBOT

INTRODUCTION

If you think back 30 years ,human could never have dreamed that artificial intelligence would take such a big steps forward and have such a positive impact on our lives.Artificial intelligence has accelerated life's pace.Artificial intelligence(AI) has given rise to applications that are now having a significant impacr on our lives.

AIM

As the foundations for the foriegn exchange process ,exchange rates are one of the most important elements in bussiness,both internationally and domestically.Defined as the rate at which one CURRENCY may be used by countries in order to purchase products or services from one another. This AI helps people to find out their currency on doing basic convertation about the currency.

AI -driven FINANCIAL PLANNING

AI - driven financial planning is emerging as a significant trend for the future . AI technology can help individuals and business plan their finances better by analyzing their income, spending,savings and investment patterns and providing personalized advice

FEATURES OF CURRENCY CONVERTER AI

- # Support more than 180 global currencies.
- # Real time price updates every minute.
- # Easy and intuitive interface for quick review of market prices.
- # Dynamic search features for discovering currency rates.
- # Watch list features to enlist favorite currencies.

AI BENIFITS IN INVESTMENT

The application of AI in wealth management has numerous benifits for investors.Investment advisors can provide more personalizes and precise financial advice to their clients . AI powered tools can analyze data to help identify market trends and investment opportunities.

ADVANTAGE OF AI CURRENCY CONVETTER

- # Reduction in human error
- # Zero risks
- # Digital Assistance
- # New Inventions
- # Unbiased Decisions
- # Perform repetitive jobs
- #Daily applications

Our AI NAME - SHAMUKAK helps the users to convert currency easily and help international

import and export business by helping them to determine the selling and buying profits of different products.

Currency exchange works by letting you convert one currency like dollars to another like rupees . You give a currency and they give you back an amount of a different currency with a similar purchasing power, subtracting out any fees or other charges.

NOT - CONVERTIBLE CURRENCY AND NDF

NDFs are cash settled and usually structured as short term forward currency contracts. An NDF contract can thus give a trader exposure to the chinese renminbi, South korean , new taiwan dollaar, Brazilian real and other non convertible currencies.

PROJECT DESCRIPTION

Chatbot development design and develop an ai power chat bot capable of providing assistance and support mental health counselling , career guidance and emergency contact. basically it is a currency convertor ,the chat bot will utilize the following - a backend infrastructure of the chat bot, integrate the whats ap or telegram API to enable seamless measure corporate open AI GPT or a similar NLP API to undersatand and respomd efectively to user queries. Implement conversation , enabling the chat bot to provide empathetic and personalize support .
